

Electrical Engineer

ABOUT MightyFly

At MightyFly, we are pioneering a revolution in the logistics industry via our autonomous hybrid eVTOL cargo aircraft. Our mission is to provide efficient, affordable and low emissions expedited deliveries to everyone.

Legacy logistics services are time and resource intensive. At MightyFly, you will have the opportunity to work on cutting edge technology to change that. We are building autonomous eVTOL aircraft with cargo capacity of 100 to 500 pounds and range of 600 miles. Our expedited delivery services aim to streamline B2B and B2G logistics, providing very efficient point-to-point deliveries to our customers. We will fundamentally transform how goods are moved around the globe.

Join the MightyFly team and help us change the world!

ABOUT THE ROLE

MightyFly is looking for an Electrical Engineer to join our growing team and contribute to the development of one of the world's largest autonomous cargo aircraft. As an Electrical Engineer at MightyFly, you'll play a crucial role in designing, developing, and integrating electrical systems that power our innovative hybrid eVTOL aircraft. Our ideal candidate is self-motivated, passionate about hybrid eVTOL aircraft development, and has a strong interest in working in a small, fast paced team where a variety of skills will need to be applied day to day. Your work will have a direct impact on our mission and success.

WHAT YOU'LL DO

- Develop reliable flight electronics for systems including high and low voltage power distribution, powertrain components, I/O interfaces, data acquisition
- Integrate custom and third-party avionics systems.
- Work closely with mechanical, software, and flight test teams to develop test stands and conduct experiments
- Design and fabricate wire harnesses to ensure reliable electrical connections.
- Generate technical drawings of systems, components, and interfaces

- Participate in flight tests to validate system functionality

WHAT YOU'LL BRING

- General
 - A passion for building systems from the ground up
 - A can-do attitude for tackling and solving complex problems
 - Be a self-starter with the ability to work and thrive in a dynamic and fast-paced environment
 - Great documentation skills
- Technical
 - Bachelor's degree in electrical engineering with 1+ years of experience as a hands-on Electrical Engineer
 - Strong knowledge of electrical circuits including analog and digital electronics, power circuits, sensor signal conditioning
 - PCB design experience including schematic capture, board layout, component selection, bring-up, and test
- Planning & Partnering
 - Ability to plan and deliver on time
 - Ability to translate product requirements into technical implementation plans
 - Excellent technical communication skills
 - Organizational Skills
- Nice to have
 - Educational background or work experience in high performance vehicles (electric or hybrid vehicles, race vehicles, Solar Car, Formula SAE)
 - Experience with data communication protocols like CAN, SPI, I2C, etc.
 - Experience with microcontrollers and embedded software.
 - Experience with batteries and battery management systems

WHAT ELSE YOU NEED TO KNOW

MightyFly is only able to sponsor TN visas and H1B visa transfers for this position at the present time.

Equal opportunity:

MightyFly is an equal opportunity employer and prohibits discrimination and harassment of any type. We do not discriminate based upon race, religion, color, national origin, sex (including pregnancy, childbirth, reproductive health decisions, or related medical conditions), sexual orientation, gender identity, gender expression, age, status as a protected veteran, status as an individual with a disability, genetic information, political views or activity, or other applicable legally protected characteristics.

Diversity:

MightyFly values diversity and welcomes applications from those who are traditionally underrepresented in the tech industry. We are an international team, led by a female CEO.

Job Location:

- Bay Area.
- Work will be on site.

Culture:

- We are aviation and aerospace enthusiasts who believe the sky is *not* the limit.
- **Teamwork:** We believe that to achieve great results we need great teamwork.
- **Working hard:** Building reliable aviation and logistics products is really hard but also exciting, challenging, and rewarding.
- **Having fun:** We believe that hard work needs to be coupled with fun. We love hanging out beyond the workday, hosting team dinners, and organizing fun activities. We love the outdoors and outdoor sports. And of course, we love flying.
- **Celebrating wins large and small.**
- **Creativity.** We love and encourage creativity. The best ideas emerge when our working environment fosters out-of-the-box thinking.
- **Equity, inclusivity, and respect** for the diversity of life and work experiences that each individual brings to the team.
- **Transparency, honesty, and integrity.**

Benefits:

- Competitive health, dental, and vision insurance
- 401k Plan
- Commuter benefits
- Complementary in office meals and snacks
- Paid time off
- Stock option/equity plan
